RINGANA partners

RINGANA wants to grow at its site in Spain and is looking for motivated employees to help continue its success story. We started out in a small laboratory, but now we are a team of over 800 employees at 10 locations.

Your Responsibilities

- Handle goods unloading, loading, storage, picking, packing, and shipment preparation

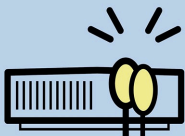

Your Qualifications

- 1+ years of experience in warehouse/logistics operations or technical support

- Maintain accurate stock records, document movements, and follow up on returns and quality deviations
- Support preventive and basic corrective maintenance on machinery and equipment
- Assist in troubleshooting simple mechanical/electrical issues and
- escalate when needed
- Operate equipment, support machine setup, and monitor processes during
- daily operations
- Ensure cleanliness, order, and safety in warehouse, production, and facility areas
- Coordinate with teams, report issues, and assist in ordering materials or spare parts
- Practical technical understanding (mechanical/electrical) for support in maintenance tasks
- High accuracy, reliability, and ability to work independently
- Strong organizational skills and hands-on working style
- Beneficial: Valid forklift license
- Willingness to work in rotating shifts
- Excellent Spanish (C2) and good English (B2) skills
- **Mandatory: valid work permit for Spain**

What really counts? Your personality, your know-how, and your commitment – we reward these individually.
