RINGANA partners

From a modest laboratory in Styria, Austria to the global stage – RINGANA continues to grow and thrive. Today, we are a team of over 800 strong individuals across 10 locations.

Your responsibilities

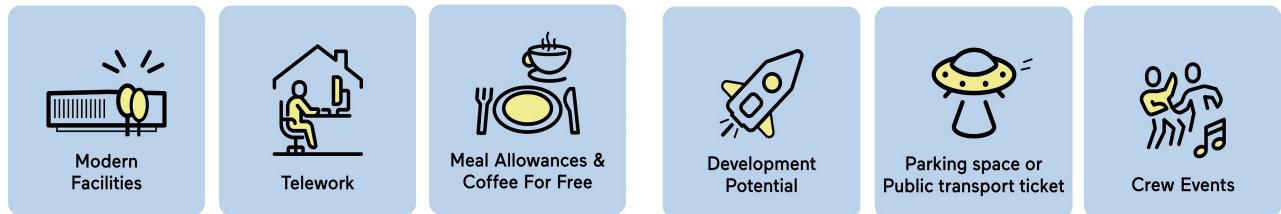

- You are part of an agile development team and will proactively participate in the development of full-stack applications with C# and .NET

Your qualifications

- At least 5+ years of experience in large-scale enterprise with dotnet and C#
- Experience in Domain Driven Design and good knowledge of design patterns

- Understand storyboards and create features out of them
- Maintenance of current applications and their code quality
- Active participation in DDD domain modeling
- Close cooperation within the development and QA team
- Strong understanding of asp dotnet core (REST APIs)
- Experience working with JavaScript, TypeScript, Vue.js or other frameworks
- Experience in CI/CD pipelines
- Ability & desire to motivate and inspire others within your team
- Valid work permit for Austria

Our Benefits

This position is subject to the Collective Agreement for Employees in Companies Providing Services in Automatic Data Processing and Information Technology.

What really counts? Your personality, your know-how, and your commitment – we reward these individually.

How to Apply

We're excited to hear your personal story and to learn more about you. Apply directly through our career portal or via WhatsApp. We look forward to receiving your application!
